PROFILE

Frontend developer based in San Angelo, Texas, building websites with HTML, CSS, and JavaScript. Currently enrolled in Frontend Simplified Institute and developing practical frontend skills through hands-on projects.

TECHNICAL SKILLS

HTML | CSS | JavaScript

PROJECTS

Treact Landing Page

HTML, CSS, JavaScript

Built a landing page recreation with service highlights, pricing plans, and testimonials. Practiced layout, spacing, and consistent styling across multiple sections.

View live project

Frontend Mini Project

HTML, CSS

Created a course-themed landing page with an illustrated hero, About and Social sections, and a contact form layout. Practiced page structure, navigation, and CSS styling.

View live project

Library Bookstore

HTML, CSS, JavaScript

Built an online bookstore frontend with featured and recent book sections, ratings, and sale prices. Organized product displays and navigation to support book browsing.
